"She was part of the 'stunt girl' movement that was very important in the 1880s and 1890s as these big, mass-circulation yellow journalism papers came into the fore." –Brooke Kroeger Around the World in Seventy-Two Days (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne's Around the World in Eighty Days (1873), Bly's journey was covered in Joseph Pulitzer's popular newspaper the New York World, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly's arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan's Elizabeth Brisland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript, this edition of Nellie Bly's Around the World in Seventy-Two Days is a classic work of American travel literature reimagined for modern readers.

Kidnapped as a teenage girl, Ma has been locked inside a purpose built room in her captor's garden for seven years. Will My Pet Go To Heaven?

Jim Lucey has been working for more than 25 years with patients suffering from mental health problems. When people at their most vulnerable present to his room at St Patrick's University Hospital, Dublin, they reveal their fears, traumas, and very real human predicaments. Most of the assessments described in this book took place in this room. While the patients' stories are diverse, one common theme emerges – that of recovery. The psychiatrist and patients show us that recovery is possible, if we can find a way to engage. Many of us find it difficult to speak of the mind, and care of the mind requires an ability to listen and to reflect. This inspiring book will give you many moments of reflection as you journey with Jim's patients towards recovery, and will restore your faith in the human experience. 'The room is a space for the mind, and a metaphor for the mind at the same time. Most of us will never find ourselves on a psychiatrist's couch and yet our lives would be perilous if we did not make space for our mental health. In this space, we can hold up a mirror and acknowledge our search for meaning. By going to the room, life becomes more resourceful and rewarding. In showing up there, we show up for life itself.'

Emily Chang is a seasoned executive who has worked with some of the world's most renowned companies like Procter & Gamble, Apple, and Starbucks. Over the last twenty-one years, her job has brought her and her family to eight different homes across the U.S and China. And everywhere she's lived, Emily has found herself at the unique intersection of her Offer and Offense. Life has served up young people who have been abused, neglected or marginalized, to find sanctuary in her spare room. Among her deeply personal accounts, Emily shares heart-wrenching stories of an emotionally abused child bride, a dying eighteen-month old boy born with hydrocephalus, and the abused daughter of a local prostitute. With the sixteen young people she and her family have cared for, Emily has found that living into her Social Legacy has not only deeply enriched her home life, it has also enabled her to become a more authentic and relatable leader in the workplace. Each time she opened the door to her spare room, Emily found herself in a front row seat, witnessing one of life's incredible stories unfold. Integrating work and life, she introduced her spare room kids to colleagues and encourages her team members to invest in their own Social Legacies. Now more than ever, social purpose has become an urgent leadership imperative. The Spare Room will help you identify your Social Legacy to live a more intentional life and lead with authentic purpose.

Sunday Times bestseller We have a lifetime's association with our bodies, but for many of us they remain uncharted territory. In Adventures in Human Being, Gavin Francis leads the reader on a journey through health and illness, offering insights on everything from the ribbed surface of the brain to the secret workings of the heart and the womb; from the pulse of life at the wrist to the unique engineering of the foot. Drawing on his own experiences as a doctor and GP, he blends first-hand case studies with reflections on the way the body has been imagined and portrayed over the millennia. 'Restlessly curious, insightful, and quirky, David Damrosch is the perfect guide to a round-the-world adventure in reading' Stephen Greenblatt A transporting and illuminating voyage around the globe, told through eighty classic and modern books 'It is always a pleasure to talk about books with David Damrosch, who has read all of them, and he is so eloquent and understanding about them all' Orhan Pamuk Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard's Department of Comparative Literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel prizewinners Orhan Pamuk, Wole Soyinka, Mo Yan and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience, and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on perennial problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat and the patriarchal structures within and against which many of these books' heroines have to struggle, from the work of Murasaki Shikibu a millennium ago to that of Margaret Atwood today. Around the World in 80 Books is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

A superb account of the men's movement, its ideas and virtues, from the perspective of the son of Laurence Olivier.

Songs from a Lead-Lined Room is a unique and remarkable book rooted in truth and raw experience, and the first memoir to focus on the personal experience of radiation treatment. As with Shea's best-selling fiction, her sharp and insightful wit and her reporter's eye for the most telling and sometimes quirky details inform every page. She shares what she learns about the process of her treatment, her bouts of despair, indignity, and fear, as well as the faux pas, the innocent blunders, and the compassion and caring of her family, friends, and fellow patients

This solemn, rhythmic intonation of the shipping forecast on BBC radio is as familiar as the sound of Big Ben chiming the hour. Since its first broadcast in the 1920s it has inspired poems, songs and novels in addition to its intended objective of warning generations of seafarers of impending storms and gales. Sitting at home listening to the shipping forecast can be a cosily reassuring experience. There's no danger of a westerly gale eight, veering southwesterly increasing nine later (visibility poor) gusting through your average suburban living room, blowing the Sunday papers all over the place and startling the cat. Yet familiar though the sea areas are by name, few people give much thought to where they are or what they contain. In ATTENTION ALL SHIPPING Charlie Connelly wittily explores the places behind the voice, those mysterious regions whose names seem often to bear no relation to conventional geography. Armchair travel will never be

the same again.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Finding himself locked in his room for six weeks, a young officer uses his imagination to travel around his room, using the various objects it contains as inspiration for a delightful parody of contemporary travel-writing and exercise in Sternean picaresque, and humorously demonstrating what one can explore without having to travel to exotic locations. **NEW YORK TIMES BESTSELLER** • Includes a new afterword about the Iran nuclear agreement, the 2016 presidential race, and the future of the U.S.-Israel alliance Michael B. Oren's memoir of his time as Israel's ambassador to the United States—a period of transformative change for America and a time of violent upheaval throughout the Middle East—provides a frank, fascinating look inside the special relationship between America and its closest ally in the region. Michael Oren served as the Israeli ambassador to the United States from 2009 to 2013. An American by birth and a historian by training, Oren arrived at his diplomatic post just as Benjamin Netanyahu, Barack Obama, and Hillary Clinton assumed office. During Oren's tenure in office, Israel and America grappled with the Palestinian peace process, the Arab Spring, and existential threats to Israel posed by international terrorism and the Iranian nuclear program. Forged in the Truman administration, America's alliance with Israel was subjected to enormous strains, and its future was questioned by commentators in both countries. On more than one occasion, the friendship's very fabric seemed close to unraveling. *Ally* is the story of that enduring alliance—and of its divides—written from the perspective of a man who treasures his American identity while proudly serving the Jewish State he has come to call home. No one could have been better suited to strengthen bridges between the United States and Israel than Michael Oren—a man equally at home jumping out of a plane as an Israeli paratrooper and discussing Middle East history on TV's Sunday morning political shows. In the pages of this fast-paced book, Oren interweaves the story of his personal journey with behind-the-scenes accounts of fateful meetings between President Obama and Prime Minister Netanyahu, high-stakes summits with the Palestinian leader Mahmoud Abbas, and diplomatic crises that intensified the controversy surrounding the world's most contested strip of land. A quintessentially American story of a young man who refused to relinquish a dream—irrespective of the obstacles—and an inherently Israeli story about assuming onerous responsibilities, *Ally* is at once a record, a chronicle, and a confession. And it is a story about love—about someone fortunate enough to love two countries and to represent one to the other. But, above all, this memoir is a testament to an alliance that was and will remain vital for Americans, Israelis, and the world.

An astonishingly brave memoir of prostitution and its lingering influence on a woman's psyche and life. "The best work by anyone on prostitution ever, Rachel Moran's *Paid For* fuses the memoirist's lived poignancy with the philosopher's conceptual sophistication. The result is riveting, compelling, incontestable. Impossible to put down. This book provides all anyone needs to know about the reality of prostitution in moving, insightful prose that engages and disposes of every argument ever raised in its favor." —Catharine A. MacKinnon, law professor, University of Michigan and Harvard University Born into a troubled family, Rachel Moran left home at the age of fourteen. Being homeless, she was driven into prostitution to survive. With intelligence and empathy, she describes the exploitation she and others endured on the streets and in the brothels. Moran also speaks to the psychological damage inherent to prostitution and the inevitable estrangement from one's body. At twenty-two, Moran escaped the sex trade. She has since become a writer and an abolitionist activist. The idea of time travel has tantalized humans for millennia. We can send humans into space, but roaming through time has eluded us. Do the laws of physics demand that we stay forever trapped in the present? This *Book Is From the Future* will explore: Time travel theories and machines of the past, present, and future. Time and the multiverse: why wormholes, parallel universes, and extra dimensions might allow for time travel. The paranormal aspects of time:

Might we already be "mentally" time traveling? Mysterious time shifts, slips, and warps that people are reporting all over the world. Are we experiencing coexisting timelines? Time travel conspiracy theories: Are we already walking among real time travelers? Has a real time machine already been created in a top-secret government facility?

Any Baedeker will tell us where we ought to travel, but only Alain de Botton will tell us how and why. With the same intelligence and insouciant charm he brought to *How Proust Can Save Your Life*, de Botton considers the pleasures of anticipation; the allure of the exotic, and the value of noticing everything from a seascape in Barbados to the takeoffs at Heathrow. Even as de Botton takes the reader along on his own peregrinations, he also cites such distinguished fellow-travelers as Baudelaire, Wordsworth, Van Gogh, the biologist Alexander von Humboldt, and the 18th-century eccentric Xavier de Maistre, who catalogued the wonders of his bedroom. *The Art of Travel* is a wise and utterly original book. Don't leave home without it.

An eye-opening exploration of blood, the life-giving substance with the power of taboo, the value of diamonds and the promise of breakthrough science Blood carries life, yet the sight of it makes people faint. It is a waste product and a commodity pricier than oil. It can save lives and transmit deadly infections.

Each one of us has roughly nine pints of it, yet many don't even know their own blood type. And for all its ubiquitousness, the few tablespoons of blood discharged by 800 million women are still regarded as taboo: menstruation is perhaps the single most demonized biological event. Rose George, author of *The Big Necessity*, is renowned for her intrepid work on topics that are invisible but vitally important. In *Nine Pints*, she takes us from ancient practices of bloodletting to the breakthrough of the "liquid biopsy," which promises to diagnose cancer and other diseases with a simple blood test. She introduces Janet Vaughan, who set up the world's first system of mass blood donation during the Blitz, and Arunachalam Muruganatham, known as "Menstrual Man" for his work on sanitary pads for developing countries. She probes the lucrative business of plasma transfusions, in which the US is known as the "OPEC of plasma." And she looks to the future, as researchers seek to bring synthetic blood to a hospital near you. Spanning science and politics, stories and global epidemics, *Nine Pints* reveals our life's blood in an entirely new light. *Nine Pints* was named one of Bill Gates recommended summer reading titles for 2019.

This book purports to be a manuscript dictated by a strange being named I-Am-The-Man to a man named Llewellyn Drury. Drury's adventure culminates in a trek through a cave in Kentucky into the core of the earth. It blends passages on the nature of physical phenomena, such as gravity and volcanoes, with spiritualist speculation and adventure-story elements (like traversing a landscape of giant mushrooms).

"An instant classic. . . . A pure joy to read." —Washington Post Book World Both a heart-racing adventure and an uplifting quest, *Walking the Bible* presents one man's epic journey—by foot, jeep, rowboat, and camel—through the greatest stories ever told. From crossing the Red Sea to climbing Mount Sinai to touching the burning bush, Bruce Feiler's inspiring odyssey will forever change your view of history's most legendary events. The stories in the first five books of the Bible, also known as the Torah, come alive as Feiler searches across three continents for the stories and heroes shared by Christians and Jews. You'll visit the slopes of Mount Ararat, where Noah's ark landed, trek to the desert outpost where Abraham first heard the words of God, and scale the summit where Moses received the Ten Commandments. Using the latest archeological research, Feiler explores how physical location affects the larger narrative of the Bible and ultimately realizes how much these places, as well as his experience, have affected his faith. A once-in-a-lifetime journey, *Walking the Bible* offers new insights into the roots of our common faith and uncovers fresh answers to the most profound questions of the human spirit. "Smart and savvy, insightful and illuminating." —Los Angeles Times "An exciting, well-told story informed by Feiler's boundless intellectual curiosity . . . [and] sense of adventure." —Miami Herald

What Would You Do with a Yellow Envelope? After Kim and her husband decide to quit their jobs to travel around the world, they're given a yellow envelope containing a check and instructions to give the money away. The only three rules for the envelope: Don't overthink it; share your experiences; don't feel pressured to give it all away. Through Ecuador, Peru, Nepal, and beyond, Kim and Brian face obstacles, including major challenges to their relationship. As she distributes the gift to people she encounters along the way she learns that money does not have a thing to do with the capacity to give, but that giving—of ourselves—is transformational.

The distinguished Hungarian author Frigyes Karinthy was sitting in a Budapest café, wondering whether to write a long-planned monograph on modern man or a new play, when he was disturbed by the roaring—so loud as to drown out all other noises—of a passing train. Soon it was gone, only to be succeeded by another. And another. Strange, Karinthy thought, it had been years since Budapest had streetcars. Only then did he realize he was suffering from an auditory hallucination of extraordinary intensity. What in fact Karinthy was suffering from was a brain tumor, not cancerous but hardly benign, though it was only much later—after spells of giddiness, fainting fits, friends remarking that his handwriting had altered, and books going blank before his eyes—that he consulted a doctor and embarked on a series of examinations that

would lead to brain surgery. Karinth's description of his descent into illness and his observations of his symptoms, thoughts, and feelings, as well as of his friends' and doctors' varied responses to his predicament, are exact and engrossing and entirely free of self-pity. *A Journey Round My Skull* is not only an extraordinary piece of medical testimony, but a powerful work of literature—one that dances brilliantly on the edge of extinction.

After the death of her son and the end of her 30-year marriage, Nan Watkins decides on her 60th birthday to travel the globe alone. What begins as a trip to renew connections with friends across Asia and Europe becomes a powerful journey of body, mind, and spirit.

Isabel Allende evokes the magnificent landscapes of her country; a charming, idiosyncratic Chilean people with a violent history and an indomitable spirit, and the politics, religion, myth, and magic of her homeland that she carries with her even today. The book circles around two life-changing moments. The assassination of her uncle Salvador Allende Gossens on September 11, 1973, sent her into exile and transformed her into a literary writer. And the terrorist attacks of September 11, 2001, on her adopted homeland, the United States, brought forth an overdue acknowledgment that Allende had indeed left home. *My Invented Country*, mimicking the workings of memory itself, ranges back and forth across that distance between past and present lives. It speaks compellingly to immigrants and to all of us who try to retain a coherent inner life in a world full of contradictions.

In this spellbinding book, the man described by the Daily Telegraph as 'possibly the best living writer in Britain' takes on his biggest challenge yet: unlocking the film that has obsessed him all his adult life. Like the film *Stalker* itself, it confronts the most mysterious and enduring questions of life and how to live. Everything was going fine ... until it wasn't. For Reverend Junius B. Dotson it took an actual breakdown during a funeral for him to realize he needed a reset. As he recalls his own journey through grief, depression, burnout, and emotional breakdown, Dotson is passionate about calling for a Soul Reset for pastors, church leaders, and all disciples of Jesus Christ. This is a 6-week churchwide study for everyone who moves at breakneck speed through their daily lives, often relying only on their own strength to bring God's kingdom on earth. Jesus shows us a different way, an easier, unforced rhythm of what kingdom work looks like. It's a balance of work, rest, play, worship, exercise, and eating well—spiritual practices that keep our souls hydrated and healthy as we do the work of the church in the world. *Soul Reset: Breakdown, Breakthrough, and the Journey to Wholeness* includes a book; a DVD; downloadable video segments; age-level discussion guides for children, youth, and adults; sermon starters; and more. *Soul Reset* is a call for the church and all of Jesus' disciples to reset and reorder their lives around spiritual practices, to learn to walk through our difficult seasons with our souls connected to the source of Living Water so that we don't burn out or break down. And if we do burn out or break down, we learn to lift one another up and point one another back to Jesus. Introduction Chapter 1: Watch How I Do It – Jesus Chapter 2: Knocking on God's Door – David Chapter 3: It's Not All on Me – Mary and Martha Chapter 4: Eat Something – Elijah Chapter 5: Life in Crisis – Job Chapter 6: Living in the Light – Judas and Peter

**YOU DESERVE TO HAVE POWER. IT IS YOURS FOR THE TAKING. GENE SIMMONS IS HERE TO UNLOCK THE DOORS TO THE TEMPLE.** Gene Simmons, KISS front-man, multi-hyphenate entrepreneur, and master of self-invention, shares his philosophy on power—how to attain it, how to keep it, and how to harness it as a driving force in business and in life. As co-founder of KISS, America's #1 gold record-award-winning group of all time, Simmons knows the thrill and seduction of power firsthand. But gold records alone don't equal power. The decisions you make once you attain a certain level of success are what separate the pretenders from the pantheon. Inspired by Niccolò Machiavelli's *The Prince*, Simmons offers his unique take on the dynamics of power in every realm of life, from the bedroom to the boardroom, to the world of rock, celebrity, and social media, to politics. With one-of-a-kind anecdotes from his life and career, as well as stories from historical and contemporary masters of power, including Winston Churchill, Napoleon Bonaparte, Warren Buffett, Michael Jordon, Oprah, and Elon Musk, Simmons crafts a persuasive and provocative theory on how the pursuit of power drives civilization and defines our lives. The rules of power are changing in today's fast-paced, hyper-connected world in a way that Machiavelli never could have imagined, and we all need to learn to adapt. Simmons tells readers: Ignore the negatives. Be unrelenting. Rise above the rest. You are the architect of your success.

A much-praised memoir of living and surviving mental illness as well as "a stereotype-shattering look at a tenacious woman whose brain is her best friend and her worst enemy" (*Time*). Elyn R. Saks is an esteemed professor, lawyer, and psychiatrist and is the Orrin B. Evans Professor of Law, Psychology, Psychiatry, and the Behavioral Sciences at the University of Southern California Law School, yet she has suffered from schizophrenia for most of her life, and still has ongoing major episodes of the illness. *The Center Cannot Hold* is the eloquent, moving story of Elyn's life, from the first time that she heard voices speaking to her as a young teenager, to attempted suicides in college, through learning to live on her own as an adult in an often terrifying world. Saks discusses frankly the paranoia, the inability to tell imaginary fears from real ones, the voices in her head telling her to kill herself (and to harm others), as well as the incredibly difficult obstacles she overcame to become a highly respected professional. This beautifully written memoir is destined to become a classic in its genre.

Journal and notebook entries, memoirs, stories, poems, and excerpts from letters form a mosaic illuminating the life and art of the lyric poet and literary critic

A lively and utterly singular travelogue of the intricate curiosities that are directly within one's own reach In 1790, while serving in the Piedmontese army, the French aristocrat Xavier de Maistre (1763–1852) was punished for dueling and placed under house arrest for forty-two days. The result was a discursive, mischievous memoir *Voyage Around My Room*, and its sequel, *Nocturnal Expedition Around My Room*. Admired by Nietzsche and Machado de Assis, Ossian and Susan Sontag, this classic book proves that sitting on the living-room sofa can be as fascinating as crossing the Alps or paddling up the Amazon. In addition to the *Voyage and Expedition*, this edition also includes the dialogue "The Leper of the City of Aosta," a preface by Xavier's better-known older brother (the royalist philosopher Joseph de Maistre), and an introduction by Richard Howard.

From "the world's greatest tour guide," a deeply-researched, captivating journey through the rich history of Christianity and the winding paths of the French and Italian countryside that will feed mind, body, and soul (*New York Times*). "What a wondrous work! This beautifully written and totally clear-eyed account of his pilgrimage will have you wondering whether we should all embark on such a journey, either of the body, the soul or, as in Egan's case, both." --Cokie Roberts "Egan draws us in, making us feel frozen in the snow-covered Alps, joyful in valleys of trees with low-hanging fruit, skeptical of the relics of embalmed saints and hopeful for the healing of his encrusted toes, so worn and weathered from their walk."--*The Washington Post* Moved by his mother's death and his Irish Catholic family's complicated history with the church, Timothy Egan decided to follow in the footsteps of centuries of seekers to force a reckoning with his own beliefs. He embarked on a thousand-mile pilgrimage through the theological cradle of Christianity to explore the religion in the world that it created. Egan sets out along the Via Francigena, once the major medieval trail leading the devout to Rome, and travels overland via the alpine peaks and small mountain towns of France, Switzerland and Italy, accompanied by a quirky cast of fellow pilgrims and by some of the towering figures of the faith--Joan of Arc, Henry VIII, Martin Luther. The goal: walking to St. Peter's Square, in hopes of meeting the galvanizing pope who is struggling to hold together the church through the worst crisis in half a millennium. A thrilling journey, a family story, and a revealing history, *A Pilgrimage to Eternity* looks for our future in its search for God.
