This manual is intended to provided the average flight simulation enthusiast with the information necessary to fly the Embraer E-jet.

This includes: basic FMC programming, system prep, taxi, takeoff, flight, descent, approach, landing, taxi and shutdown.

Embraer E-jets v.2

Montenegro Airlines Embraer 195 Embraer considered producing an aircraft which was known as the E-195X, a stretched version of the E-195. It would have seated approximately 130 passengers. The E-195X was apparently a response

to an American Airlines request for an aircraft to replace its McDonnell Douglas MD-80s.[37] Embraer abandoned plans for the 195X in May 2010, following concerns that its ...
