**radio Technician and General ...** When you obtain a General class license, you've reached a great milestone. General class licensees have full privileges on nearly all amateur frequencies, with only small portions of some HF bands remaining off limits. The General class exam, which includes 35 questions (you have to get 26 right to pass), covers many of the same topics as the Technician exam, but in more detail. The exam introduces some new topics that an experienced ham is expected to understand.
