Language plays an essential role both in creating law and in governing its implementation. Providing an accessible and comprehensive introduction to this subject, *Language and Law*: describes the different registers and genres that make up spoken and written legal language and how they develop over time; analyses real-life examples drawn from court cases from different parts of the world, illustrating the varieties of English used in the courtroom by speakers occupying different roles; addresses the challenges presented to our notions of law and regulation by online communication; discusses the complex role of translation in bilingual and multilingual jurisdictions, including Hong Kong and Canada; and provides readings from key scholars in the discipline, including Lawrence Solan, Peter Goodrich, Marianne Constable, David Mellinkoff, and Chris Heffer. With a wide range of activities throughout, this accessible textbook is essential reading for anyone studying language and law or forensic linguistics. Sections A, B, and C of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at

Introduction to International Legal English is an intermediate level course for law students or newly-qualified lawyers who need to use English in their legal work or studies. Suitable for classroom use or self-study, the course prepares learners for using English in a commercial law environment. Using authentic legal texts and case studies supplied by TransLegal®, Europe's leading firm of lawyer-linguists, the course develops an understanding of the law and consolidates language skills. Featuring both academic and professional contexts, Introduction to International Legal English is an ideal starting point for preparing for the Cambridge ILEC examination.

Admirably clear, concise, down-to-earth, and powerful—all too often, legal writing embodies none of these qualities. Its reputation for obscurity and needless legalese is widespread. Since 2001 Bryan A. Garner's *Legal Writing in Plain English* has helped address this problem by providing lawyers, judges, paralegals, law students, and legal scholars with sound advice and practical tools for improving their written work. Now the leading guide to clear writing in the field, this indispensable volume encourages legal writers to challenge conventions and offers valuable insights into the writing process that will appeal to other professionals: how to organize ideas, create and refine prose, and improve editing skills. Accessible and witty, *Legal Writing in Plain English* draws on real-life writing samples that Garner has gathered through decades of teaching experience. Trenchant advice covers all types of legal materials, from analytical and persuasive writing to legal drafting, and the book's principles are reinforced by sets of basic, intermediate, and advanced exercises in each section. In this new edition, Garner preserves the successful structure of the original while adjusting the content to make it even more classroom-friendly. He includes case examples from the past decade and addresses the widespread use of legal documents in electronic formats. His book remains the standard guide for producing the jargon-free language that clients demand and courts reward.

Essential Legal English in Context

An Introduction to the U.S. Common Law System

An Introduction to Legal Terminology, Reasoning, and Writing in Plain English

A Course for Classroom Or Self-study Use
Legal Translation Explained

Introduction to the English Legal System is the ideal foundation for those new to the study of law. Writing in a highly engaging and accessible style, Partington introduces the purposes and functions of English law, the law-making process,

and the machinery of justice, whilst also challenging assumptions and exploring current debates.

This book challenges the usual introductions to the study of law. It argues that law is inherently political and reflects the interests of the few even while presenting itself as neutral. It considers law as ideology and as politics, and critically assesses its contribution to the creation and maintenance of a globalized and capitalist world. The clarity of the arguments are admirably suited to provoking discussions of the role of law in our contemporary world. This third edition provides contemporary examples to sustain the arguments in their relevance to the twenty-first century. The book includes an analysis of the common sense of law; the use of anthropological examples to gain external perspectives of our use and understanding of law; a consideration of central legal concepts, such as order, rules, property, dispute resolution, legitimation and the rule of law; an examination of the role of law in women's subordination and finally a critique of the effect of our understanding of law upon the wider world. This book is ideal for undergraduate and postgraduate students reading law.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. This book provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and verbal legal communication in typical legal situations in a straightforward manner. In addition to chapters on the grammar and punctuation utilised in legal writing, the book features sections on contract-drafting and the language used in negotiations, meetings and telephone conversations. It features a companion website which contains exercises covering the majority of the topics covered in the book's chapters. This edition thoroughly revises and expands the content of the companion website and contains updated examples, more detailed explanations of problematic areas and an expanded section on writing law essays.

Law

Legal Writing in Plain English, Second Edition

Introduction to the English Legal System 2019-2020

The Lawyer's English Language Coursebook

Language and Law

This book acquaints readers with the two most important skills-legal research and writing-and approaches each problem and exercise from a different legal subject area. By discussing problem-solving techniques in a wide variety of topics, this book successfully increases student levels in reading and understanding legal documents.

A brief history of the principal English institutions and doctrines. Topics examined include law and custom in early Britain, the origins of common law, the judiciary and various courts, trial by jury, laws affecting property, and laws concerning marriage and divorce, nuisance, tort and defamation.

Employing a hands-on, structured approach, the author leads the reader through carefully crafted exercises that allow readers to understand and make practical use of AngloAmerican legal terminology. The layered sequence of topics and exercises leads from the simplest use of legal terminology in conversation to mastery of advanced legal terminology and increasingly complex writing.

Syntax of -ing Forms in Legal English

English for Law. Theory and Practice

Introduction to International Legal English Student's Book with Audio CDs (2)

The study is concerned with the issue of -ing forms in both the theoretical aspect (morpho-syntactic delimitation of the scalar range of -ing forms) and practical aspect (survey of their occurrence in a legal English corpus). The research concentrates on the syntactic analysis of -ing verbal nouns, gerunds and -ing participles, and is aimed to reveal the conditioning factors that influence the selection of a particular type of the nominalisations under analysis.

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Written with the needs of both practitioners and students in mind, *Legal English* provides a comprehensive and highly practical approach to its subject-matter and addresses the key aspects of the use of English in commercial legal contexts. *Legal English* covers the key areas of legal English usage for both written and oral legal communication in typical legal

situations. It features expanded terminology glossaries, legal drafting troubleshooting tips, language for negotiation and contract-drafting guidance. This new fourth edition now offers more activities and examples, both in print and online, showing how language is correctly applied, as well as sample templates for commonly used written documents such as legal letters, memoranda, and contracts. www.routledge.com/cw/haigh - Video simulations of real-life legal situations - Comprehension exercises - Gap-fill exercises - Multiple choice questions

In this volume the author examines verbal constructions in prescriptive legal texts written in English. Modal auxiliaries such as shall, may and must are analysed, as well as indicative tenses such as the present simple, and also non-finite constructions such as the -ing form and -ed participles. Results are based on specially compiled corpora of prescriptive texts coming from a wide range of English-speaking countries and also international organizations such as the European Union and the UN. The author also analyses the nature, extent and impact of the calls for change in legal language coming from the Plain Language Movement. Although legal language tends to be depicted as being highly conservative and unchanging, the author shows that in certain parts of the English-speaking world a minor revolution would appear to be taking place, while in other parts there is greater resistance to change.

Introduction to the English Legal System 2018-19

Introduction to International Legal English Teacher's Book

Introduction to the English Legal System is the ideal foundation for those coming new to the study of law.

Writing in a highly engaging and accessible style, Martin Partington introduces the purposes and functions of English law, the law-making process, and the machinery of justice, while also challenging assumptions and exploring current debates. Consolidating over 40 years' experience in the law, Martin Partington examines beliefs about the English legal system, and encourages students to question how far it meets the growing demands placed on it. Incorporating all the latest developments, this concise introduction brings law and the legal system to life. Online resources This book is accompanied by online resources, including: questions for reflection and discussion; multiple choice questions; a glossary; further reading materials; web links; and a link to Martin Partington's blog, which covers key developments in the English justice system.

This cutting-edge volume offers a theoretical and applied introduction to the emerging legal technology and informatics industry.

Several international legal issues are related to the concept of legal personality, including the determination of international rights and duties of non-state actors and the legal capacities of transnational institutions. When addressing these issues, different understandings of legal personality are employed. These concepts consider different entities to be international persons, state different criteria for becoming one and attach different consequences to being one. In this book, Roland Portmann systematizes the different positions on international personality by spelling out the assumptions on which they rest and examining how they were substantiated in legal practice. He puts forward the argument that positions on international personality which strongly emphasize the role of states or effective actors rely on assumptions that have been discarded in present international law. The principal argument is that international law has to be conceived as an open system, wherein there is no presumption for or against certain entities enjoying international personality.

Current Legal Issues

A Text with Exercises

Plain English for Lawyers

In *Legal English*, experienced educators and professors Teresa Kissane Brostoff and Ann Sinsheimer answer the needs of law students unfamiliar with the use of English in legal settings. They introduce the student into a new world of study of the law by carefully guiding them through the vital skills and techniques they will need to feel comfortable and proficient in English-speaking and American legal culture. Legal research examines subject matter enshrouded in social circumstances in order to conceptualize theories and prepare a future course of action. This dynamic, inter-disciplinary, and labyrinthine character of legal research requires researchers to be fluid, eclectic, and analytical in their approach. *Idea and Methods of Legal Research* unearths how the thinking process is to be streamlined in research, how a theme is built on the basis of comprehensive and intensive study, and the paths through which notions of objectivity, feminism, ethics, and purposive character of knowledge are to be understood. The book first explains the meaning, evolution, and scope of legal research, and discusses objectivity and ethics in legal research. It engages with the requirements, advantages, and limits of various doctrinal and non-doctrinal methods and tools, and the points to be considered in selecting a suitable method or combination of methods. It highlights analytical, historical, philosophical, comparative, qualitative, and quantitative methods of legal research. The book then goes on to discuss the use of multi-method legal research, policy research, action research, and feminist legal research and finally, reflects on research-based critical legal writing, as opposed to client-related legal writing. This book, thus, is a comprehensive answer to key questions one faces in legal research.

"Absolute Legal English is a practical and stimulating course book for students of law and practising lawyers who wish to work in an international legal environment and need to extent their language skills. It is particularly useful for candidates preparing for the ILEC exam"-back cover.

An Introduction to English Legal History

Test Your Professional English

Introduction to the English Legal System

This text gives students of English for professional purposes over 500 words and expressions to refer to. It can be used for self-study or in-class. An answer key is provided.

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason *An Introduction to Law* is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

Focusing on the problems of translating English legal language, Alcaraz and Hughes offer a wide-ranging view of one of the most demanding and vital areas of contemporary translation practice. Individual chapters deal with legal English as a linguistic system, special concepts in the translation of legal English, the genres of legal translation, and offer a series of practical problems together with discussions of proposed solutions, as well as insight into the pragmatic ways translators go about finding solutions. The numerous examples and discussions of specific terms make the book useful both as a manual in the translation class and as an invaluable reference work for students, teachers, self-learners and professional translators.

Idea and Methods of Legal Research

A Really Basic Introduction to English Law and the English Legal System

Legal Language

This is a great starter book for those who are new to the subject of English law. Are you starting any kind of course of study in law or a related subject? Maybe you have always had an interest in law and just want an accessible book to start you off. Perhaps you have a friend or relative who is studying law and you want to see what they are learning about. Whatever your reasons, this easy to read book covers the basics for you. Written by a university lecturer and qualified solicitor, it is short enough to read in several sittings and won't bog you down in unnecessary details. I hope it will encourage you to read further into the subject, and who knows where that may lead you...? The book covers topics such as the court system, lawyers, the common law, legislation, the European Union, human rights, contract law, tort, criminal law and more, all in an easy-to-read, straightforward way and at an introductory level. The "Really Basic Introductions" series includes the following titles: - *A Really Basic Introduction to Value Added Tax* - *A Really Basic Introduction to English Law and the English Legal System* - *A Really Basic Introduction to English Contract Law* - *A Really Basic Introduction to Company Law* - *A Really Basic Introduction to Income Tax* - *A Really Basic Introduction to Capital Gains Tax* The above titles are all available in Kindle format.

Law and Language, the latest volume in the *Current Legal Issues* series, contains a broad range of essays by scholars interested in the interactions between law and language. This volume examines the themes of truth in language and the law, and the role of language in different areas of law, including contract and criminal law.

'Legal English' will enable students to confidently write on and discuss legal topics as well as conduct legal work - such as drafting legal documentation, negotiating, litigating, advising, presenting, writing and acting as an advocate.

How to Understand and Master the Language of Law

New Introduction to Legal English

This history of legal language slices through the polysyllabic thicket of legalese. The text shows to what extent legalese is simply a product of its past and demonstrates that arcane vocabulary is not an inevitable feature of our legal system.

In recent years, regulation has emerged as one of the most distinct and important fields of study in the social sciences, both for policy-makers and for scholars who require a theoretical framework that can be applied to any social sector. This timely textbook provides a conceptual map of the field and an accessible and critical introduction to the subject. Morgan and Yeung set out a diverse and stimulating selection of materials and give them context with a comprehensive and critical commentary. By adopting an interdisciplinary approach and emphasising the role of law in its broader social and political context, it will be an invaluable tool for the student coming to regulation for the first time. This clearly structured, academically rigorous title, with a contextualised perspective, is essential reading for all students of the subject.

An essential handbook for international lawyers and

students Focusing on vocabulary, *Essential Legal English in Context* introduces the US legal system and its terminology. Designed especially for foreign-trained lawyers and students whose first language is not English, the book is a must-read for those who want to expand their US legal vocabulary and basic understanding of US government. Ross uses a unique approach by selecting legal terms that arise solely within the context of the levels and branches of US government, including terminology related to current political issues such as partisanship. Inspired by her students' questions over her years of teaching, she includes a vast collection of legal vocabulary, concepts, idioms, and phrasal verbs and unpacks concepts embedded in US case law, such as how the US constitutional separation of powers may affect a court's interpretation of the law. The handbook differentiates basic terms in civil and criminal cases and compares terms that may seem similar because of close spellings but in fact have different meanings. For instance, what is the distinction between "taking the stand" and "taking a stand?" What is the difference between "treaties" and "treatises"? Featuring illustrations and hands-on exercises, *Essential Legal English in Context* is a valuable self-study resource for those who want to improve their legal English terminology before entering a US law school, studying US law or government, or working as a seconded attorney to a US law firm. Instructors can use the handbook in an introductory US legal English course. *Tradition and Change in Legal English* *An Introduction to the Legal Language and Culture of the United States* *Text and Materials* *Verbal Constructions in Prescriptive Texts* *An Introduction to Law and Legal Reasoning*
