Part B goes by the name of "Engineering Law and Professional Liability" and
discusses matters such as the structure of the Canadian legal system, basic
legal concepts and business organizations. The sensitive issues have to do
with application of tort law principles in cases of negligence or situations
when contracts are impeached.

Law for Professional Engineers: Canadian and Global ...
Law For Professional Engineers: Canadian And Global Insights. The purpose
of this text is twofold: (i) to provide the Canadian engineering profession with
a reference text on legal issues and principles of relevance to practising
engineers; and (ii) to prepare candidates for Canada's professional practice
engineering law examinations.

Law For Professional Engineers - PPE Headquarters
Engineering law refers to the application of laws applying to the practice of
professional engineering. Engineering law is the study of how ethics and legal
frameworks are adopted to ensure public safety surrounding the practice of
engineering. California law defines engineering as the professional practice of
rendering service or creative work requiring education, training and
experience in engineering sciences and the application of special knowledge
of the mathematical, physical and engineeri

Engineers deal with highly technical concepts, designs and products, and the
laws affecting an engineer's work can be as complex as the work itself.
While engineers may be reluctant to devote time to a subject like the law,
there are some laws that engineers should be familiar with in order to avoid
problems during their careers. Students in an online Master of Engineering
Management degree program take a course in law as part of the program's
interdisciplinary business foundation.

Professional practice | Institution of Civil Engineers
In the United States, the practice of professional engineering is highly
regulated and the title "professional engineer" is legally protected, meaning
that it is unlawful to use it to offer engineering services to the public unless
permission, certification or other official endorsement is specifically granted
by that state through a professional engineering license.
