From psychologists to social scientists, journalists to weekend bloggers, everyone has an opinion about the do's and don'ts for raising healthy, well-adjusted--and let's not forget, polite--children in today's fast-paced world. Where does this leave parents? Too often, lacking in confidence, ill equipped, and overwhelmed. Parenting expert Vicki Hoefle makes the bold claim that it's time for parents to get off the perfection path and get back to the real job of parenting: to grow a grown-up.

In this no-nonsense parenting guide, Hoefle draws upon twenty-five years of experience with helping parents see the big picture and sidestep what she calls the "detail drama" that too often trumps everyday life with our kids. Parents learn more than just strategies; they learn a methodology that allows them to help their toddlers build a strong foundation for success in adulthood. In her trademark, tell-it-like-it-is style, Hoefle tells parents to trust their intuition and develop an intentional strategy for meeting each child's unique needs. Above all, The Straight Talk on Parenting offers the confidence-boosting reminder that parenting is about practice (and a healthy dose of humor), not perfection.

A bold, science-based corrective to the groundswell of misinformation about food and how it's produced, examining in detail local and organic food, food companies, nutrition labeling, ethical treatment of animals, environmental impact, and every other aspect from farm to table Consumers want to know more about their food--including the farm from which it came, the chemicals used in its production, its nutritional value, how the animals were treated, and the costs to the environment. They are being told that buying organic foods, unprocessed and sourced from small local farms, is the most healthful and sustainable option. Now, Robert Paarlberg reviews the evidence and finds abundant reason to disagree. He delineates the ways in which global food markets have in fact improved our diet, and how "industrial" farming has recently turned green, thanks to GPS-guided precision methods that cut energy use and chemical pollution. He makes clear that America's serious obesity crisis does not come from farms, or from food deserts, but instead from "food swamps" created by food companies, retailers, and restaurant chains. And he explains how, though animal welfare is lagging behind, progress can be made through continued advocacy, more progressive regulations, and perhaps plant-based imitation meat. He finds solutions that can make sense for farmers and consumers alike and provides a road map through the rapidly changing worlds of food and farming, laying out a practical path to bring the two together.

From the Bishop of the Diocese of New Hampshire in the Episcopal Church, the first openly gay person elected (in 2003) to the historic episcopate and the world's leading religious spokesperson for gay rights and gay marriage—a groundbreaking book that lovingly and persuasively makes the case for same-sex marriage using a commonsense, reasoned, religious argument, made by someone who holds the religious text of the Bible to be holy and sacred and the ensuing two millennia of church history to be relevant to the discussion, equally familiar with the secular and political debate going on in America today, and for whom same-sex marriage is a personal issue; Robinson was married to a woman for two decades and is a father of two children and has been married to a man for the last four years of a twenty-three-year relationship.

Samantha Hartwell's life changes completely when she's attacked by a client's boyfriend. She leaves Boston and Straight Talk, her consulting business, and escapes to California wine country to heal and to help her sister and brother-in-law with their vineyard's growth. But she can't escape the desire Derek Roberts, a world-wide photographer, had sparked inside her. The two challenge each other in ways they've never experienced and end up with more than they ever expected. This is a women's fiction novel that explores a woman becoming stronger as she learns to trust love again.

An openly gay Episcopal bishop presents an argument for same-sex marriage from a religious perspective, addressing the controversial issues surrounding the debate while sharing the stories of his own marriages and how his views have been shaped by Church history.

Stephanie Rockey is the founder of True Life Partners, a personal introduction and search company in the Washington, D.C. area. After interviewing several hundred men and women, she found that most working adults were achieving what they wanted in the world of work, but could not seem to establish a loving relationship. What was far more disconcerting, however, was the realization that most women are entirely confused about how men think and what men really want in a relationship. Understanding this is essential in establishing the beginning bonds of trust that can grow into a solid, long-term, committed relationship. Women it is not just about you. You cannot simply dictate demands: I want this and I want that. I have a list of attributes that I require in a man and if he doesn't get a checkmark in

every box, he just isn't good enough for me. Relationships are about not only love and companionship, but also communication and compromise. Whether or not you believe this, let me be the first to tell you that you are not perfect. Men are not perfect either and you can simply not hold them to the impossibly high standards that 90% of women seem to have! There are many self-help relationship books out there, however, none seems to apply in today's society; and, none really covers all stages of a relationship. After setting many clients on the right track to establishing a successful relationship, I can tell you that this book will give you guidance on not only what you are doing wrong, but also how to make positive changes that will lead to a successful life and relationship. You will discover further insights into how to achieve a happy, healthy, successful life, and long-term loving relationship.

When Bob Lutz retired from General Motors in 2010, after an unparalleled forty-seven-year career in the auto industry, he was one of the most respected leaders in American business. He had survived all kinds of managers over those decades: tough and timid, analytical and irrational, charismatic and antisocial, and some who seemed to shift frequently among all those traits. His experiences made him an expert on leadership, every bit as much as he was an expert on cars and trucks. Now Lutz is revealing the leaders—good, bad, and ugly—who made the strongest impression on him throughout his career. **Icons and Idiots** is a collection of shocking and often hilarious true stories and the lessons Lutz drew from them. From enduring the sadism of a Marine Corps drill instructor, to working with a washed-up alcoholic, to taking over the reins from a convicted felon, he reflects on the complexities of all-too-human leaders. No textbook or business school course can fully capture their idiosyncrasies, foibles and weaknesses – which can make or break companies in the real world. Lutz shows that we can learn just as much from the most stubborn, stupid, and corrupt leaders as we can from the inspiring geniuses. He offers fascinating profiles of icons and idiots such as... Eberhard von Kuenheim. The famed CEO of BMW was an aristocrat-cum-street fighter who ruled with secrecy, fear, and deft maneuvering. Harold A. "Red" Poling: A Ford CEO and the ultimate bean counter. If it couldn't be quantified, he didn't want to know about it. Lee Iacocca: The legendary Chrysler CEO appeared to be brilliant and bold, but was often vulnerable and insecure behind the scenes. G. Richard "Rick" Wagoner: The perfect peacetime CEO whose superior intelligence couldn't save GM from steep decline and a government bailout. As Lutz writes: We'll examine bosses who were profane, insensitive, totally politically incorrect, and who "appropriated" insignificant items from hotels or the company. We'll visit the mind of a leader who did little but sit in his office. We'll look at another boss who could analyze a highly complex profit-and-loss statement or a balance sheet at a glance, yet who, at times, failed to grasp the simplest financial mechanisms—how things actually worked in practice to create the numbers in the real world. The result is a powerful and entertaining guide for any aspiring leader.

"**Bonnie Kaye's Straight Talk**" is a collection of the best of her monthly newsletters from 2001-2008. These are the newsletters that her support network members call their lifeline when unraveling the complexities of their marriages to their gay husbands. In Kaye's own words, "This is the best survival guide for women who suspect or find out that their husbands are

homosexual. These newsletters were written from my heart about my own life experiences as well as those of some of my support network members. I clearly explain how and why your husbands are gay, as well as provide good advice on how to handle those difficult situations such as rebuilding your sexual and self-esteem. After reading this book, you will understand how to make the only rational choice to survive emotionally after this happens to you. It will help you identify with the millions of other women in this situation who can identify and feel every raw emotion you are going through now, and understand the challenges you face in the years ahead of healing and starting over." Kaye, who has counseled over 35,000 women since 1984, is considered the national expert on Straight/Gay marriages by the media. She is a consultant and guest for the major talk shows and news shows throughout the country. Kaye has written four other books to address this topic, but she believes that this collection of her newsletters is, The best of my best! About the Author Bonnie Kaye is recognized as an international expert in the field. She acts as a consultant for major news networks and television shows including Oprah, Montel Williams and Tyra Banks. Kaye's other books include: "The Gay Husband Checklist for Women Who Wonder; Doomed Grooms: Gay Husbands of Straight Wives; Man Readers: A Woman's Guide to Dysfunctional Men; Straight Wives: Shattered Lives;" and "How I Made My Husband Gay: Myths About Straight Wives."

So begins this collection of Stéphane Dion's speeches from 1996 to 1998. Organized around four central themes, Straight Talk shows the breadth and strength of Dion's convictions. Dion believes that Canada is first and foremost a nation of caring people, in contrast to the image projected by the endless, dry constitutional debate. He argues that the melding of diversity and unity that is the basis of this nation is possible only because of the particular federalism that Canadians have invented. This federalism, however, is far from perfect and it is the responsibility of government to continue to work to improve it, always remembering that its core must be the quality of service it provides to Canadians. Dion believes that the Quebec question is not a constitutional question but one that concerns identity: many francophones believe that their identity and culture are not respected in the rest of Canada and see the anglophone majority as a force for assimilation, while many in other provinces feel that separatists do not share the same values of openness and tolerance. He believes strongly that the secession process the Parti Québécois has proposed - effecting independence on the basis of incorrect legal theory, an unclear referendum question, and a majority of fifty percent plus one - is difficult to reconcile with democracy and raises questions that must be discussed openly and resolved democratically. Straight Talk is a refreshingly honest and frank discussion about a matter that has been at the forefront of Canadian's thoughts for too many years. Relates stories from the author's upbringing to reconcile the contradictions between the opportunities of modern life and the constrictions of Orthodox practice.

Praise for The LEADERSHIP GENIUS of GEORGE W.

BUSH "Finally, a fun-to-read book about George W. Bush that details the secrets to his success!" —Ken Blanchard, coauthor, The One Minute Manager "Political journalists love graduate student intelligence, the ability to make

clever allusions in seminars, and in 1999—2000, they hassled George W. Bush for not having it. They didn't realize what this book succinctly displays: that the President has something far more important – CEO intelligence, the ability to ask tough questions, garner essential information, and make discerning decisions. Such intelligence can be fostered and honed, and this book shows how." —Dr. Marvin Olasky, Professor of Journalism, The University of Texas at Austin, and Editor in Chief, World magazine "Put aside politics and read this book right away for its true wisdom and concrete advice about leadership. The authors have done a brilliant job explaining the leadership style that makes this President so effective. Any leader can learn from the philosophy, strategy, and tactics in this book." —Bruce Tulgan, founder of Rainmaker Thinking, Inc., and author, Winning the Talent Wars "Thompson and Ware make a compelling case that this President who 'loves to be underestimated' has a highly effective approach to leadership that is humane, direct, and at times, truly transformational. Many in business today could benefit from reading this book." —David M. Abshire, President, Center for the Study of the Presidency

After the pioneers, the second generation of African American anthropologists trained in the late 1950s

and 1960s. Expected to study their own or similar cultures, these scholars often focused on the African diaspora but in some cases they also ranged further afield both geographically and intellectually. Yet their work remains largely unknown to colleagues and students. This volume collects intellectual biographies of fifteen accomplished African American anthropologists of the era. The authors explore the scholars' diverse backgrounds and interests and look at their groundbreaking methodologies, ethnographies, and theories. They also place their subjects within their tumultuous times, when antiracism and anticolonialism transformed the field and the emergence of ideas around racial vindication brought forth new worldviews. Scholars profiled: George Clement Bond, Johnnetta B. Cole, James Lowell Gibbs Jr., Vera Mae Green, John Langston Gwaltney, Ira E. Harrison, Delmos Jones, Diane K. Lewis, Claudia Mitchell-Kernan, Oliver Osborne, Anselme Remy, William Alfred Shack, Audrey Smedley, Niara Sudarkasa, and Charles Preston Warren II

Straight Talk: Volume One Playing For Keeps *How To Love A Woman And Make Her Love You Back*** Round One - The Try-Outs** In this first of two sizzling volumes, Wright gives raw tutorials on winning a woman's affections. In locker room voice former pro basketball player Gerry Wright answers all the questions that aspiring Casanovas are dying (but too proud) to ask. From what to wear, to how to smell, to how to equip the bachelor pad, Volume I gets a man to first base ---without striking out. Loaded with clever, hard-nosed information, Straight Talk elevates men from sitting on life's bleachers as all of the quality babes walk by to becoming an All-Star at love. Unlike books like *Men Are From Mars, Women Are From Venus*, this two-book series deals with the real world, and gives the low down of what women really want --- in "guy talk"! Crammed with nuggets of practical information spiked with sporting terms, *Playing For Keeps* is savvy, sexy, and funny. **Straight Talk: Volume Two Papa's Got A Brand New Bag ***A Man's Guide To Lovin' His Woman Down*** Round Two - The Knockout** Volume I *Straight Talk: Playing For Keeps* got a fellow's foot in the door and into her head ---- Volume II *Papa's Got A Brand New Bag* pitches step-by-step details on how to perform in her bed. Gerry Wright, personal trainer and former pro basketball player gets straight to the point --- most men are lousy lovers. Perceptive, real and wise, in Volume II Wright teaches men the blow-by-blow moves that leave a woman crying "time-out!" In the same no-holds-barred locker room style of Volume I, Wright explicitly coaches mankind on the sensual techniques to win over the opposite sex. Based on the shared experiences on different continents as Wright played

basketball, he delivers the low down on the sexual "left hooks" and "curve balls" - that American women are dying for men to throw. More than a primer on body parts (and yes) oral sex the book also instructs men to listen to their partners. Perceptive, clever, and graphic --- Wright's instincts brand him as America's personal trainer at love. Wright's hand size (a full 11 1/4 inches spread) afforded him the ability to earn *Sports Illustrated* notoriety as a slam-dunk king. In two erotically raw volumes he gives tips that will have women in the palm of your hand (regardless of how many inches you're wielding). Wright's coaching a new team of men --- and, frankly fellows, she won't be trading you to another team after you read Wright's *Straight Talk*.

Letter to Gerry Wright: Dear Mr. Wright, I went to a little book store called "Consider The Alternatives" on Thursday, April 19, looking for a book about relationships. I told Judy, the owner, that I have read many books to try to understand my man. And I couldn't seem to find one about women for men to read that wasn't just about sex. She called me at my home the very next day and left me a message that two books came in about the subject we were discussing and would I mind coming and taking them to read and review. I went to the store the very next day and read the cover letter, then the contents of the books. I immediately took them home to read. I am 2/3 through Volume 1 and I can't put it down. You must promote this book every where. Your book is heroic to all of us who have been criticized for saying the things you had the balls to say and say it straight. These two books must be marketed ASAP. Get the word out!

Thank-you so much for your gift to men and women. Your reward is very great. T.R.

Purpose draws potential. Potential brings to life destiny. " Understanding you have a purpose is the first brick on the road to destiny! " —Otis Teague This book asked the question, is the church the world ' s only hope? That with all the challenges and changes people are facing within today ' s society in the game called life, when there is an ever-increasing need for hope, where is the church, and has the church simply been sidelined with injuries? One of the greater questions is, have we lost sight of the things in this world that really matter? Do people still matter, or has that focus been lost behind all the distractions, turmoil, and mentalities of how much I can I gain in the here and now? A book that speaks to your heart about how much you matter to God, letting you know that God loves and that no matter what you have done or where you are in your life that you can make it! If you would just get to know him, trust that he is a keeper of his word, and simply give him a chance to show you yourself. The challenges we face are never more than we could handle, though we never think about that while we are going through them. But after you live through that significant life-changing event, you should realize and know that nothing can overtake you unless you let it, and nothing is greater than the love God has for you.

When Mitch Williams threw the pitch that lost the 1993 World Series for the Philadelphia Phillies, no one could have predicted that his reaction to the loss would win the hearts and minds of Phillies fans across the nation. He stood at his locker for an hour after the game, answering every question, most of which could be answered simply: I threw a bad pitch. He didn't go into hiding, make excuses, or believe that one loss was the end of the world. Phillies fans, notorious as the toughest in sports, recognized a stand-up guy when they saw one and embraced him as one of their own. Though his successful pitching career is behind him, Mitch is still standing up in Philadelphia and telling it like it is. "Straight Talk from

Wild Thing" is the story of his career, but more than that, it is inside baseball seen from many perspectives: sitting on a 10-hour minor league bus ride, standing on a pitcher's mound, and sitting in a clubhouse, a dugout, and a ranch in Texas, where a man who retired at age 32 struggled to figure out what to do next.

Dion's writings are organized into four sections: the spirit of federalism, the practice of federalism, identity, and secession. Advocating in favor of Canadian unity, he asserts the importance of diversity and unity and argues the Quebec question is not a constitutional question but one that concerns identity.
