For best results on Mastering we recommend you to take a couple of minutes to prepare your file correctly. So, before rendering, just ask yourself these 3 questions: Is the master output clipping?? This is the most common mistake. So, make sure you have lowered the master fader enough to leave at least 3 dB of headroom.

Online Audio Mastering Service | MasteringBOX

Choosing HD WAV for your LANDR master output format is the best option. When you need MP3s or any other lossy file format for digital distribution creating them from an HD WAV ensures that all copies of your track will sound their best. 16-bit resolution is a leftover from the CD era. Today ' s DAWs can handle 24-bits no problem.
