The placebo response is a myth. It does not exist in reality, and continuing to name it is hindering the optimal application of science to healing in medicine. On the surface, it is obvious that, when defined as a biological response to an inert pill (like a sugar pill), the idea of a “ response ” to a placebo is impossible.

Human response to disasters has been recorded throughout human history. In ancient times disasters were often perceived as a result of a deity, divine being, or spiritual creature showing their displeasure over human behavior. This later changed as humans began to see disasters as natural events that caused physical destruction and social chaos to individuals, communities, and societies as opposed to responses to human actions. The term "disaster myth" has been created to describe the belief tha

Naomi Wolf's (1991) article "Beauty Myth" illustrates different events where women are stereotypically viewed. Wolf expands on how different industries, especially fashion, contributes to women's misconception of beauty. We were convinced that being "beautiful" is to look a certain way: thin, hourglass shape, youthful, luscious hair, fine skin, large firm breasts, etc.
