Prospects for Chemoprevention of Colorectal Neoplasia ... The prevention of colorectal cancer is a subject of increasing medical importance, and there have been a number of promising recent developments. This book examines in detail important aspects of the current status and future prospects for chemoprevention of colorectal tumors.

Prospects for Chemoprevention of Colorectal Neoplasia ... Buy Prospects for Chemoprevention of Colorectal Neoplasia by Andrew T. Chan, Elmar Detering from Waterstones today! Click and Collect from your local Waterstones or get FREE UK delivery on orders over £ 25.

Prospects for Chemoprevention of Colorectal Neoplasia by ... adenoma, carcinoma, chemoprevention, colon, cyclo-oxygenase 2 (COX-2), non-steroidal anti-inflammatory drug (NSAID) The risk of CRC (colorectal cancer) and the need for preventive strategies CRC is a major cause of cancer deaths in the U.K. Epidemiological studies suggest that dietary factors are very important and that between 50 and 80% of bowel cancers are preventable [ 1 ].

Prospects in NSAID-derived chemoprevention of colorectal ... The PGE synthases and E-prostanoid receptors (EP1-4) have therefore recently attracted considerable interest as potential novel targets for the prevention/therapy of colorectal cancer. Selective (and possibly combinatorial) inhibition of the synthesis and signalling of those PGs most highly associated with colorectal tumorigenesis may have some advantages over COX-2-selective inhibitors.

Prospects in NSAID-derived chemoprevention of colorectal ... Colorectal cancer chemoprevention refers to the administration of natural or synthetic compounds to block, reverse, delay or prevent the development of invasive large bowel neoplasms. The ultimate goal of implementing a chemopreventive intervention in the general, or alternatively, in an at-risk population is to decrease the incidence rate of the specific cancer being targeted.
