Rich Tasks And Work Samples In
Fractions

For me, a rich task is one that
both engages and challenges
students with a wide level of
mathematical ability. They need to
be "low barrier, high ceiling", by
which I mean students need to have
found success/made progress with
the task within the first 30
seconds, but there is still enough
meat left to keep them thinking 30
minutes (or even 3 lessons) later.

In maths classes teachers often
approach differentiation by
setting different levels of work
for learners at different levels
of 'ability'. However, this
approach may fail to develop the
types of mathematical thinking
needed most for students' futures.
