In 1719 Daniel Defoe wrote the first great English-language novel. Though a rich story and an excellent window to his times, 300-year-old English is difficult to read. Therefore, enjoy an updated translation of the

classic story.

Defoe occupies a central place in the history of English literature. As the author of *Robinson Crusoe* and *Moll Flanders* he can claim to be the creator of the first novels in English, and he was one of the earliest practitioners of the 'desert island' myth which has had such an influence on the human imagination. In *A Journal of the Plague Year* and *A Tour through the Whole Island of Great Britain* he forged a distinctive documentary style which deeply influenced later writers.

THE TRUE STORY OF UNITED STATES NAVY RADIOMAN
GEORGE TWEED AND HIS 31 MONTHS OF SURVIVAL ON
JAPANESE-HELD GUAM DURING WORLD WAR II "DANIEL

DEFOE would have admired George Ray Tweed, the American seaman whose ingenuity and self-reliance have caught the imagination of modern America as *Robinson Crusoe's* fascinated eighteenth century England. Defoe's hero was engaged almost solely in a struggle for survival against nature. "Crusoe and Tweed were most alike in the genius for contrivance, and Tweed doesn't suffer from comparison with his famous prototype. To construct his shelter and furniture, Crusoe brought from his ship planks and boards and a complete carpenter's chest of tools, in addition to two saws, an ax, "an abundance of hatchets," a hammer, nails and several knives. Tweed built his equipment without benefit of nails, using only a handsaw, a machete, and a pocketknife. He went on to fashion, with crude materials, a lamp, a lantern, and an ingenious alarm system. At one time he had electric lights in a part of the country where not even the best homes enjoyed such luxury. He kept in repair an almost worn-out typewriter, on which he produced a one-page underground newspaper. He tore apart an apparently useless radio, put it together again, and brought in news from a station thousands of miles away. "Tweed was born with common sense. A roustabout life as lumberman, stevedore, and mechanic gave him self-reliance; hunting expeditions in Oregon and California taught him woodsmanship; the Navy instructed him in the techniques of communication. It was as if all his early life had been preparation for the grueling experience which he alone, of those who fled before the invading Japanese, survived. "I am glad to be the one to tell Tweed's story. In all important respects it is related here exactly as he gave it to me."

A Defoe Companion

The extraordinary writings of Phillis Wheatley, a slave girl turned published poet In 1761, a young girl arrived in Boston on a slave ship, sold to the Wheatley family, and given the name Phillis Wheatley. Struck by Phillis' extraordinary precociousness, the Wheatleys provided her with an education that was unusual for a woman of the time and astonishing for a slave. After studying English and classical literature, geography, the Bible, and Latin, Phillis published her first poem in 1767 at the age of 14, winning much public attention and considerable fame. When Boston publishers who doubted its authenticity rejected an initial collection of her poetry, Wheatley sailed to London in 1773 and found a publisher there for *Poems on Various Subjects, Religious and Moral*. This volume collects both Wheatley's letters and her poetry: hymns, elegies, translations, philosophical poems, tales, and epyllions--including a poignant plea to the Earl of Dartmouth urging freedom for America and comparing the country's condition to her own. With her contemplative elegies and her use of the poetic imagination to escape an unsatisfactory world, Wheatley anticipated the Romantic Movement of the following century. The

appendices to this edition include poems of Wheatley's contemporary African-American poets: Lucy Terry, Jupiter Harmon, and Francis Williams. I was born in the year 1632, in the city of York, of a good family, though not of that country, my father being a foreigner of Bremen, who settled first at Hull. He got a good estate by merchandise, and leaving off his trade, lived afterwards at York, from whence he had married my mother, whose relations were named Robinson, a very good family in that country, and from whom I was called Robinson Kreutznaer; but, by the usual corruption of words in England, we are now called--nay we call ourselves and write our name--Crusoe; and so my companions always called me. I had two elder brothers, one of whom was lieutenant-colonel to an English regiment of foot in Flanders, formerly commanded by the famous Colonel Lockhart, and was killed at the

battle near Dunkirk against the Spaniards. What became of my second brother I never knew, any more than my father or mother knew what became of me. Being the third son of the family and not bred to any trade, my head began to be filled very early with rambling thoughts. My father, who was very ancient, had given me a competent share of learning, as far as house-education and a country free school generally go, and designed me for the law; but I would be satisfied with nothing but going to sea; and my inclination to this led me so strongly against the will, nay, the commands of my father, and against all the entreaties and persuasions of my mother and other friends, that there seemed to be something fatal in that propensity of nature, tending directly to the life of misery which was to befall me. My father, a wise and grave man, gave me serious and excellent counsel against what he foresaw was my design. He called me one morning into his chamber, where he was confined by the gout, and expostulated very warmly with me upon this subject. He asked me what reasons, more than a mere wandering inclination, I had for leaving father's house and my native country, where I might be well introduced, and had a prospect of raising my fortune by application and industry, with a life of ease and pleasure. He told me it was men of desperate fortunes on one hand, or of aspiring, superior fortunes on the other, who went abroad upon adventures, to rise by enterprise, and make themselves famous in undertakings of a nature out of the common road; that these things were all either too far above me or too far below me; that mine was the middle state, or what might be called the upper station of low life, which he had found, by long experience, was the best state in the world, the most suited to human happiness, not exposed to the miseries and hardships, the labour and sufferings of the mechanic part of mankind, and not embarrassed with the pride, luxury, ambition, and envy of the upper part of mankind. He told me I might judge of the happiness of this state by this one thing--viz. that this was the state of life which all other people envied; that kings have frequently lamented the miserable consequence of being born to great things, and wished they had been placed in the middle of the two extremes, between the mean and the great; that the wise man gave his testimony to this, as the standard of felicity, when he prayed to have neither poverty nor riches.

Michael Shinagel has collated the reprint with all six authorized editions published by Taylor in 1719 to achieve a text that is faithful to Defoe's original edition. Annotations assist the reader with obscure words and idioms, biblical references, and nautical terms. "Contexts" helps the reader understand the novel's historical

and religious significance. Included are four contemporary accounts of marooned men, Defoe's autobiographical passages on the novel's allegorical foundation, and aspects of the Puritan emblematic tradition essential for understanding the novel's religious aspects. "Eighteenth- and Nineteenth-Century Opinions" is a comprehensive study of early estimations by prominent literary and political figures, including Alexander Pope, Jean-Jacques Rousseau, Samuel Johnson, Samuel Taylor Coleridge, William Wordsworth, Edgar Allan Poe, Thomas Babington Macaulay, Charles Dickens, Karl Marx, and John Stuart Mill. "Twentieth-Century Criticism" is a collection of fourteen essays (five of them new to the Second Edition) that presents a variety of perspectives on Robinson Crusoe by Virginia Woolf, Ian Watt, Eric Berne, Maximilian E. Novak, Frank Budgen, James Joyce, George A. Starr, J. Paul Hunter, James Sutherland, John J. Richetti, Leopold Damrosch, Jr., John Bender, Michael McKeon, and Carol Houlihan Flynn. A Chronology of Defoe's life and work and an updated Selected Bibliography are also included.

The Teacher's Robinson Crusoe

Robinson Crusoe is one of the most famous literary characters in history, and his story has spawned hundreds of retellings. Inspired by the life of Alexander Selkirk, a sailor who lived for several years on a Pacific island, the novel tells the story of Crusoe's survival after shipwreck on an island, interaction with the mainland's native inhabitants, and eventual rescue. Read variously as economic fable, religious allegory, or imperialist fantasy, Crusoe has never lost its appeal as one of the most compelling adventure stories of all time. In addition to an introduction and helpful notes, this Broadview Edition includes a wide range of appendices that situate Defoe's 1719 novel amidst castaway narratives, economic treatises, reports of cannibalism, explorations of solitude, and Defoe's own writings on slavery and the African trade. A final appendix presents images of Crusoe's rescue of Friday from a dozen of the most significant illustrated editions of the novel published between 1719 and 1920.

Ebenezer Le Page, cantankerous, opinionated, and charming, is one of the most compelling literary creations of the late twentieth century. Eighty years old, Ebenezer has lived his whole life on the Channel Island of Guernsey, a stony speck of a place caught between the coasts of England and France yet a world apart from either. Ebenezer himself is fiercely independent, but as he reaches the end of his life he is determined to tell his own story and the stories of those he has known. He writes of family secrets and feuds, unforgettable friendships and friendships betrayed, love glimpsed and lost. The Book of Ebenezer Le Page is a beautifully detailed chronicle of a life, but it is equally an oblique reckoning with the traumas of the twentieth century, as Ebenezer recalls both the men lost to the Great War and the German Occupation of Guernsey during World War II, and looks with despair at the encroachments of commerce and tourism on his beloved island.

G. B. Edwards labored in obscurity all his life and completed *The Book of Ebenezer Le Page* shortly before his death. Published posthumously, the book is a triumph of the storyteller's art that conjures up the extraordinary voice of a living man.

An Investigation Into the Language of Robinson Crusoe

Robinson Crusoe, Edited After the Original Editions

Palaestra

Stranded alone on a remote island, Robinson Crusoe must summon the courage, inventiveness and faith necessary to survive and avoid despair in the midst of savage nature. Initially believed to be a true account, Robinson Crusoe is often seen as the very first English novel. The narrator offers a compelling account of his shipwreck and stranding on a desert isle. Armed with tools and weapons from the wreck, he methodically works to protect himself and better his chances of survival. As time passes, he farms, hunts and builds a fortified shelter. Troubled by the complete lack of human contact, Crusoe begins to contemplate his life and relation to God. He eventually encounters foes, in the form of cannibals who visit the island, as well as an unexpected

ally. Often credited as one of the first examples of literary realism, the novel's almost documentary tone can be credited for providing much of its enduring appeal. The lucid descriptions of Crusoe's struggles put the reader in his place with great immediacy and creates wonder as to how well we might fare in the same conditions. This is the quintessential castaway story from which all others spring. Imitated and updated many times since its original appearance in 1719, the novel has been adapted into plays, opera, film, comics, television, radio and cartoons, and it has inspired countless other works in virtually all these media. Subject to steady re-interpretation down the years, Robinson Crusoe has been considered as everything from a political allegory of colonialism to a religious novel of Christian salvation, but through any lens it remains one of the most beloved and engaging novels in English. With an eye-catching new cover, and professionally typeset manuscript, this edition of Robinson Crusoe is both modern and readable.

A beloved adventure classic, *The Swiss Family Robinson* is a tale of courage in the face of the unknown that has endured the test of time. Trapped on a remote island after a storm leaves them shipwrecked, a Swiss pastor, his wife, and their four sons must pull together if they want to survive. Hunting, farming, and exploring a strange land for the first time, each son not only tests his own bravery, but discovers a skill all his own as they each adapt to this new, wild place. Full of wonder, revelation, and invention, this timeless adventure story has sparked imaginations of readers young and old for generations. This collection of essays expands the study of that immensely widely read and much-adapted novel, beyond the first book – *The Life and Strange Surprising Adventures of Robinson Crusoe* (usually known simply as *Robinson Crusoe*) – to take in the far less well-known *Farther Adventures* and the almost unread *Serious Reflections*, beyond Defoe's texts, to their re-writing and adaptation and beyond the Atlantic and South American context to an Asian and Pacific context. The essays consider both how Asia is represented in the books (in terms of politics, economics, religion), and how the book has been received, adapted, and taught, particularly in Asian contexts.

But let's be clear right up front. My 5-star rating of this book applies only to this original unabridged version in Johann Wyss' own words. The modernized versions are watered down, time-wasters for word wusses. When I was nine years old I spent months struggling through this book for the first time. The old style language made for rough going, but I persevered. In the end I was rewarded with more than a classic tale marvelously told; I discovered a love of books and earned self-respect for tackling a tough read. If I was a teacher whose task it was to introduce students to classic literature, I would skip Dickens and use this book. Kids love adventure, animals, and action. *Swiss Family Robinson* has it all. It's really a thriller disguised as a literary classic. All book lovers should read this one at least once. It is well-written, well-paced, full of adventure, and is a wonderful book on man's

interactions with nature and the environment. A shipwreck strands a family headed for the new world with nothing but the ship's supplies and each other on a desert isle. Through hard work and knowledge of the natural world, they are able to not just survive, but thrive on the island. There is no better adventure in the natural world survival story. This book is so good and so well-regarded that there have been multiple schmaltzy movie versions over the years. **DON'T SEE THEM UNTIL YOU READ THE BOOK!** The writing moves well and the plot line includes plenty of excitement. Although this book is 200 years old, the author wrote it as an action book and it does not drag like other works of the time like 'Last of the Mohicans' or 'Robinson Crusoe'. Robinson Crusoe is another famous survival story written prior to this book, but it suffers from being a morality play with little action and long descriptive sections that are frankly boring. The Swiss Family Robinson is a much better book. This is a particularly clean book also and is perfect for younger readers as well. Highly recommended.

Unrecognized in the United States and resisted in many wealthy, industrialized nations, children's rights to participation and self-determination are easily disregarded in the name of protection. In literature, the needs of children are often obscured by protectionist narratives, which redirect attention to parents by mythologizing the supposed innocence, victimization, and vulnerability of children rather than potential agency. In *Perils of Protection: Shipwrecks, Orphans, and Children's Rights*, author Susan Honeyman traces how the best of intentions to protect children can nonetheless hurt them when leaving them unprepared to act on their own behalf. Honeyman utilizes literary parallels and discursive analysis to highlight the unchecked protectionism that has left minors increasingly isolated in dwindling social units and vulnerable to multiple injustices made possible by eroded or unrecognized participatory rights. Each chapter centers on a perilous pattern in a different context: "women and children first" rescue hierarchies, geographic restriction, abandonment, censorship, and illness. Analysis from adventures real and fictionalized will offer the reader high jinx and heroism at sea, the rush of risk, finding new families, resisting censorship through discovering shared political identity, and breaking the pretenses of

sentimentality.

In 1773, a young, African American woman named Phillis Wheatley published a book of poetry that challenged Western prejudices about African and female intellectual capabilities. Based on fifteen years of archival research, *The Age of Phillis*, by award-winning writer Honorée Fanonne Jeffers, imagines the life and times of Wheatley: her childhood in the Gambia, West Africa, her life with her white American owners, her friendship with Obour Tanner, and her marriage to the enigmatic John Peters. Woven throughout are poems about Wheatley's "age"—the era that encompassed political, philosophical, and religious upheaval, as well as the transatlantic slave trade. For the first time in verse, Wheatley's relationship to black people and their individual "mercies" is foregrounded, and here we see her as not simply a racial or literary symbol, but a human being who lived and loved while making her indelible mark on history. mothering #1 Yaay, Someplace in the Gambia, c. 1753 after the after-birth is delivered the mother stops holding her breath the mid-wife gives what came before her just-washed pain her insanity pain an undeserved pain a God-given pain oh oh oh pain drum-talking pain witnessing pain Allah a mother offers You this gift prays You find it acceptable her living pain her creature pain her pretty-little-baby pain

Serious Reflections During the Life and Surprising Adventures of Robinson Crusoe

Journeys Through Bookland

Faust, Don Quixote, Don Juan, Robinson Crusoe

In this book, economists and literary scholars examine the uses to which the Robinson Crusoe figure has been put by the economics discipline since the publication of Defoe's novel in 1719. The authors'

critical readings of two centuries of texts that have made use of Robinson Crusoe undermine the pervasive belief of mainstream economics that Robinson Crusoe is a benign representative of economic agency, and that he, like other economic agents, can be understood independently of historical and cultural specificity. The book provides a detailed account of the appearance of Robinson Crusoe in the economics literature and in a plethora of modern economics texts, in which, for example, we find Crusoe is portrayed as a schizophrenic consumer/producer trying to maximize his personal well-being. Using poststructuralist, feminist, postcolonial, Marxist and literary criticism approaches, the authors of the fourteen chapters in this volume examine and critique some of the deepest, fundamental assumptions neoclassical economics hold about human nature; the political economy of colonization; international trade; and the pervasive gendered organization of social relations. The contributors to this volume can be seen as engaging in the emerging conversation between economists and literary scholars known as the New Economic Criticism. They offer unique perspectives on how the economy and economic thought can be read through different disciplinary lenses. Economists pay attention to rhetoric and metaphor deployed in economics, and literary scholars have found new areas to explore and understand by focusing on economic concepts and vocabulary encountered in literary texts.
